

Industry Talks about Impact of Pandemic COVID-19

Hard Things

The world has come to a grinding halt Under Lockdown

Businesses are facing disruption like never before

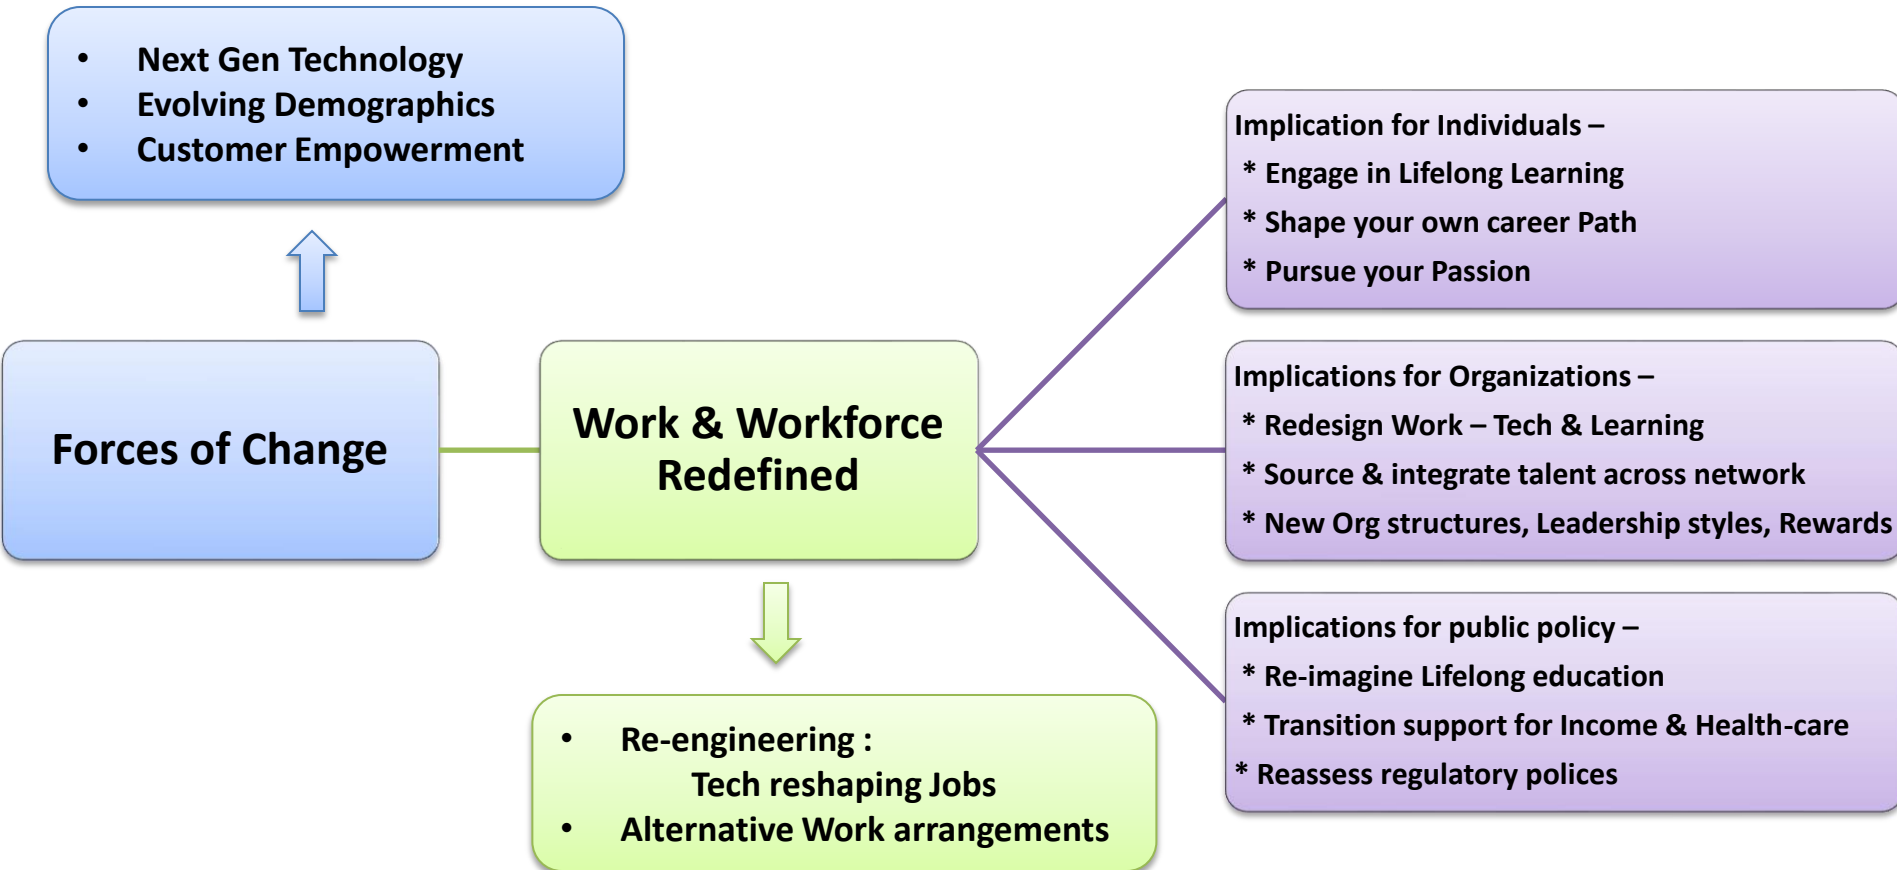

Good Things

Modern employees are leveraging cutting edge technologies

Example - Remote desktop software to not only overcome these challenges, but also increase their productivity.

Employees will be more productive and have a healthier state of mind as they will no longer waste time commuting

Framework – The Future of Workforce

COVID-19 Forced employees to WFH

To Ensure Business Continuity
Companies need to provide its employees

Remote Virtual Desktop

Fast Connectivity

Secure Access to Data /
Applications

Virtual Desktop
Embracing Challenges

Skilled staff to
**Deploy &
Manage**

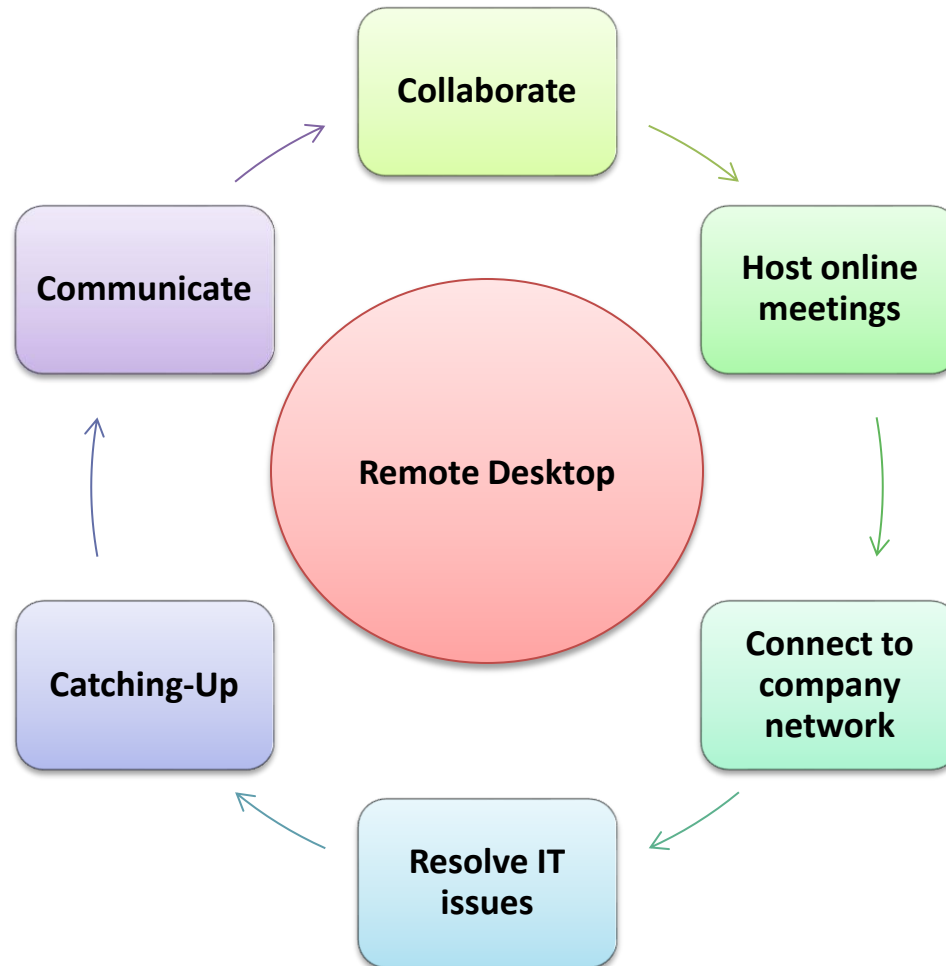

Issues with
**Multi-Session
Environments**

Poor
**Application
Experience**

**Security &
Compliance**
Adherence

HOW REMOTE DESKTOP IS EMPOWERING EMPLOYEES

*Remote Working Means Companies **Spend Less** on Office Space And Infrastructure*

*The way the world is moving, remote working is the **Future**.*

What Employees Really want?

Service

Single Pane of glass access to all services

Ability

Ability to use any app, on any device, anytime, from anywhere

Security

Strong Security, but without inconvenience

Flexibility

Flexible, intelligent office environment, adjusted to Needs

Uniqueness

Personalized service bundles, that recognize each users uniqueness

Support

All the support They need, when and where they need it

Access

Access to all their Data, All the time

Companies Critical Challenges

IT May not be as simple as it sounds !!!

Un-optimized Network resulting in poor user experience

Limited Collaboration hampering employees productivity

Unsecured access, Violation of user privileges and possible identity theft

Inability to extend contact centre infrastructure to home agents to deliver business as usual

Worried about **insecure data exchange** over public network

COMPLIANCE

Polices, Regulations & Guidelines of company and customer continues to be Live

BUDGET

IT Decision Makers to find alternative solutions that can manage within the current budget

IMPLEMENTATION

Challenges of Identifying, deploying & make right solution-up quickly

Companies need to ensure @WFH

Productive collaboration with their teams and customers across borders

Secure Access to applications & data that they have been restricted to corporate network

Secure Access of end customers applications to provide **continued support**

Seamless extension of workplace and back office operations to remote agents

WHY TRADITIONAL ORGANISATIONS SHOULD GET ON BOARD

Companies to transition to remote working by leveraging modern tools, traditional businesses are finding a degree of friction making the transition

The benefits of **remote desktop software** can be seen throughout several industries such as manufacturing, banking, etc

Business Benefits

By moving certain employees to a work from home model, businesses will require a **smaller office with less support infrastructure**

Employees will **be more productive** and have a healthier state of mind as they will **no longer waste time commuting**

By demonstrating **trust**, organizations will invariably see employees taking more **ownership** and giving their **100%**

Employees are able to effectively manage **work-life balance**, they will be **happier, more loyal** and genuinely **invested** in the growth of the company

Stay

Home, Healthy, Happy, Learning, Safe
